FREE KH/FF7 Cloud Strife papercraft model

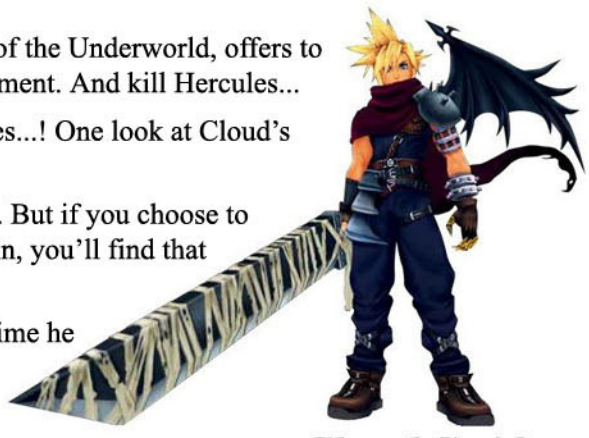

In *Kingdom Hearts*, Cloud is looking to confront his dark other half... Hades, god of the Underworld, offers to help him. In return, Cloud only needs to compete in the Olympus Coliseum tournament. And kill Hercules...

But then *you* arrive, and Hades forces Cloud to fight you in the preliminary matches...! One look at Cloud's sword, and you know you are in *big* trouble...

The first time you fight Cloud, he might appear unbeatable that early in the game... But if you choose to compete in the main tournament of the Hercules Cup and come to face Cloud again, you'll find that he actually went kinda *easy* on you the first time...

If you really like pain, you can also fight him a third time in the Hades Cup. This time he will be even stronger still, and he also brings a friend...

Good luck.
You'll need it.
